No services were held in the Baptist Church last Sunday, on account of the illness of the pastor.

One of the hardest of all crops "to raise," in the financial sense, is a mortgage, but it is easy to plant. The less one plants of a mortgage the better.

Since the oat crop promises to be so short this year, every farmer ought to plant an extra amount of corn, in order to make up for shortage in the oats.

Our young friend, Paul Sharpe, who has been residing at Anniston, Ala., for a year past returned to Anderson last week. The climate of Alabama seems to have agreed with him.

A counterfeit twenty dollar silver certificate has lately been put in circulation. Bring 'em to the INTELLIGENCER Office. We never inquire whether a bill is counterfeit these days.

Major M. B. McSwain, the talented editor of the Haddon Guardian, has been elected for the third time Intendant of Hampton. This is a deserving compliment to the Major.

Every dollar paid the editor will return to you a thousandfold, because a well paid man will take pleasure in doing his best for the place and people who give him a liberal support.

D., conducting the funeral services.

Last Saturday we had the pleasure of a visit from Miss Lena Byrd, who has been in the city for several days past representing the publishing house of Messrs. L. A. Clarkson & Co., of Atlanta, Ga. She is bringing several very valuable books, one of which is an excellent work on the culinary art. Miss Byrd is a worthy, charming young lady, and we are glad to know that she met with success in Anderson.

Mr. V. L. Norman, of Atlanta, Ga., was in the city last Sunday arranging for an exhibition of the wonderful power possessed by Mrs. Coleman, who will appear in the Masonic Hall this (Thursday) evening. Mrs. Coleman possesses a similar power to that of Miss Lulu Hurst, though her force (or whatever it is) is said to be greater and more mysterious than that displayed by the latter. She is a scientific puzzle, and everybody should see her. See notice in another column.

Section 1594 of the Revised Statutes of South Carolina says: "It shall not be lawful for any person in this State between the fifteenth day of March and the first day of October, in any year hereafter, to catch, kill or injure or to pursue with such intent or to sell or expose for sale any wild turkey, partridge, dove, woodchuck or muskrat; and any person found guilty thereof shall be fined not less than ten (10) dollars, or be imprisoned not less than ten days, which fine or imprisonment shall go one-half thereof to the informer, the other half to the school fund of the County wherein the offense was committed."

A meeting of the Board of Directors of the Savannah Valley Railroad Company was held in this City on Tuesday last. The proceedings of the meeting have not been made public, but it is understood that the prospects for the enterprise is very good. The President of the Company and Col. J. N. Brown, left here yesterday for Savannah, and from there will go to Charleston for the purpose of selling the bonds of the company to the public. The grading will soon be completed, by which time it is thought an arrangement will have been perfected for stock and equipping the road.

Mr. J. A. Elliott, of this County, has recently patented a combined cotton planter and guano distributor, which is now on exhibition at Messrs. Watson & Son's store. It is attracting the attention of all our farmers, a number of whom say it is far ahead of any planter and distributor they have ever seen. Its advantages over other similar machines can be seen at a glance, besides it is very simple, and durable and does not cost much. Mr. Elliott and Mr. J. W. Eakew are manufacturing the planters, and have already secured over fifty orders. Mr. Elliott is quite a young man, and has displayed considerable ingenuity in his invention.

The Greenville News of Tuesday says: "On Sunday, evening at 6 o'clock William Armstrong went to the house of Mrs. Robinson at Pelzer and called to Edward Holder, who was there, to come out. Holder appeared in answer to the summons, and was immediately assisted by Armstrong, who thrust a revolver into his face and fired. Fortunately the weapon was aimed low, and the ball struck Holder's chin, passing through it and lodging in his throat. Holder produced a knife and attacked Armstrong, cutting him in the head and making two severe gashes. The fight then ended. Neither man is dangerously hurt. The difficulty is said to have been about a young lady."

Our readers can amuse themselves by solving the following problem, which, it is said, is based upon an actual transaction, and has never been settled satisfactorily to one of the two parties to the contract: A and B farm together on shares, each to bear half the expenses and each to receive one-half the crop made. Besides the joint farm, A works another farm in the neighborhood, in which B has no interest. During the Summer, B, who is managing the joint farm, borrows two of A's laborers for one day to work on the joint farm, and pays back the loan to A some time later by sending him two laborers from the joint farm to work on his individual farm for one day. Query: What did A make or lose by the transaction?

On last Monday afternoon Mrs. Charles Long, wife of Mr. Joseph C. Long, who resides in Martin township, was burned to death while helping her husband to burn off some new ground. She left her husband to look after another part of the burning, and, staying longer than he expected, he went in search of

her and found her dead, with the clothes entirely buried up and the flesh terribly charred. She had apparently caught on fire while attending to one of the brush heaps, and had run about thirty yards before she was overcome by the flames. Trial Justice Walters, at the request of the family, empaneled a jury and held an inquest over the deceased, and a verdict of accidental burning was rendered in accordance with the foregoing facts. The community sympathizes deeply with Mr. Long in his terrible bereavement.

Dr. William J. Milford, a prominent citizen and physician of the Storeville section of our County, died on last Friday afternoon, after a lingering illness of about twelve months. He was born and lived in this County all his life, and made many friends by his upright life and neighborly kindness. He was a member of the Baptist Church for many years, and was liberal in donations for public and charitable enterprises. He practiced medicine successfully for nearly fifty years, and was quite an influential and prominent citizen in all of the affairs of his section of the County, and was well known throughout the County. His remains were interred in the cemetery adjoining the First Greek Baptist Church on Sunday afternoon, after appropriate funeral services conducted by Rev. J. S. Murray, which were attended by a very large congregation of the friends and acquaintances of the deceased.

Mrs. Elvira Norris, widow of Dr. Wm. Calhoun Norris, an eminent physician of this County, died at the residence of her son-in-law, Thomas H. Anderson, Esq., in Savannah Township, on Friday, the sixth day of March inst., in the eighty-fourth year of her age, after a long and painful illness, which was borne with Christian patience and fortitude. Mrs. Norris was born in 1815, and thus represented a generation of whom few are now living. She was a lady of elegant refinement and culture, and was possessed of a bright mind, to which was added the advantages of a good education. She was a lady of sweet and amiable disposition, who formed many friendships and always delighted in their society. Left a widow by the death of her husband before the war, she maintained her residence near this city until the disasters which followed the surrender. She was the almoner of thousands of Christian soldiers, which rise up to bless her memory. Her home was always open to the needy soldiers of the Confederacy, and her husband was as often ordered to help their suffering families. She leaves surviving her two daughters, fifteen grand-children and eight great-grand-children, to whom she leaves the sweetest of all legacies—the memory of a beautiful life replete with those deeds of love and of mercy which are the highest ornaments of a noble woman's life. Her remains were placed to rest in the cemetery at Roberts Presbyterian Church, of which the deceased was a member, after an appropriate funeral tribute conducted by Rev. T. C. Ligon, and attended by many friends and acquaintances of the deceased.

Mr. Charles Eden, of Trinidad, Colorado, says: "Seeing certificates of the wonderful cures made by Brewer's Lung Restorer, I was induced to try it on my little son, who was troubled with lung or throat affection, pronounced by the physician as consumption. It acted wonderfully on him, and by the time he had taken one bottle of it the cough disappeared. I am now on a visit to my parents in Georgia, but will return in a few days to my home and will take some of the Lung Restorer with me."

THE ATLANTA CONSTITUTION.
In a long article relating to the B. B. B. of that city, says:
The Blood Balm Company started one year ago with \$102.00, but to-day the business cannot be bought for \$30,000.00! The demand and the satisfaction given is said to be without a parallel, as its action is pronounced wonderful.
We are glad to announce that our druggists have already secured a supply, and we hope our readers will supply themselves at once.

Willcocks—
Is the name of a flourishing village in Coffee County, Georgia, on the line of the Brunswick and Albany railroad.
Mr. E. B. Brown, a well known citizen of that village, writes under date of December 22:
Soon after my marriage, about four years ago, my wife was stricken with some trouble peculiar to her sex, which broke down her general health. In this condition she was soon after attacked with Inflammatory Rheumatism of such a severe type that it made her a cripple. She was reduced in flesh to sixty-five pounds, and was very near losing her life. She was attended by three good physicians who treated her with some benefit, but she was still suffering. Her husband returned in a still more severe and painful form which seemed to defy the skill of all the doctors. She was almost gone, and was in a state of almost complete prostration, and would lie and scream all day. A friend of mine, an engineer on the Brunswick and Albany railroad, suggested that I should use Swift's Specific (S. S. S.), which I did. After she had taken one small bottle she was up and able to walk over the house, and after taking the six small bottles she is now able to do any kind of house work. It is a wonderful cure, and I am sure it is the best medicine in the world. The proprietors should let the world know about it.
NORRIS—The S. S. S. Company wish to carry the lie on the face, purporting to be another firm in the neighborhood, they are really strong solutions of poisonous minerals as Mercury, Potash, etc.—Be careful to get the genuine.
